**HISTORICAL NOTES:**

- The all-time BC Lions roster includes those players who played at least one game for the club between 1954 and 2015. In addition, there are a number of players shown with 0 games played. These players spent time on either the Active Roster or the Injured List without being activated (but occupying legitimate roster spots) or played only in the post-season.
- Games played totals for 1964 to 2015 are obtained from records published annually by the CFL. Totals for the 1954 to 1963 period were developed from a detailed analysis of post-game lineups available for each game.
- Uniform numbers were obtained by a full review of game programs back to the inaugural 1954 season plus additional data from club media guides.
- Positions also reflect historical changes in the CFL game as from 1954 to the early 1960s players were listed only as C, G, T, E, QB, HB & FB. This encompassed defensive positions such as linebacker or defensive end into the scheme. In the 1960s, this began to change into the familiar patterns of the modern game including "new" positions such as flanker, split end, defensive back, corner linebacker, wide receiver, punter etc.
